Dear Curtis,

I just wanted to send you a quick note to say thank you again for playing at our important customer event this week. The evening could not have gone better and I wanted to personally tell you how thrilled we were with Jubilee's performance. The music definitely added to the ambiance of the evening and everyone raved about the experience days following the event. You made us look so good!

We hope to have the opportunity to work with you again.

All the Best,
